ABOUT ME

Final-year Computer Science and Engineering student with a strong interest in Machine Learning, Data Science, and Software Development. Seeking opportunities to apply technical skills and contribute to innovative software solutions.

Projects

● Smart Exam portal

- Technologies:
Frontend: HTML, CSS, Bootstrap
Backend: PHP (XAMPP)
Database: MySQL
- Built a Smart Exam Portal for online examination management result generation, and student performance tracking.

● Social Media Add Prediction

- Technologies: Python, Scikit-learn, Pandas, NumPy
- Developed a machine learning model to predict customer purchase behavior from social media advertisements using classification algorithms and data preprocessing techniques in machine learning

● Graphing Calculator

- Technologies: Java
- Developed a Graphing Calculator that evaluates mathematical expressions and visualizes functions through dynamic graph plotting.

Certifications

freecodecamp - Responsive Web Design Certification
